

# The William J. Hughes Technical Center

INVITES YOU  
to the

## **SPEAKERS SERIES Presentation by:**

*Mr. Bob Nedbal*

**IT Director, Advanced Enterprise Solutions  
Sytel, Inc.**

### **Topic: Enterprise Information Portals**

The presentation will begin with an overview of the evolving portal market differentiating between portal products and portal solutions. Focus will then shift to; challenges organizations encounter deploying portals, best practices for implementation and operational success working with "C-level" leadership, business managers, and most importantly the customers - the everyday users of the portal solution.

Mr. Nedbal is currently It Director, Advanced Enterprise Solutions, for Sytel Corp. In the last ten years he has gained extensive experience developing solutions and leading teams delivering IT services including networking, web application development and, more recently, portal solutions involving collaborative tools, content management, search and categorization, and application integration. Some major successes with Sytel include solutions developed for Medicare and Medicaid Services, U.S. Dept of Agriculture, U.S. Air Force, Defense Technical Information Center and eGrants Federal Commons.

Bob has made presentations an numerous federal government conferences and the United Nations Economic Commission for Europe in Geneva. Bob holds a Bachelors Degree in Economics from George Mason University.
